In a certain code language,

'M & N' means 'M is the father of N',

'M @ N' means 'M is the mother of N',

'M % N' means 'M is the brother of N',

'M # N' means 'M is the sister of N'

Based on the above, how is K related to M if 'M @ Q % T & G # K % N'?

Options:

- 1. ***** Son
- 2. * Brother
- 3. ✓ Son's son
- 4. * Father

Question Number: 1 Question Id: 63068058060 Is Question Mandatory: No Calculator:

Correct Marks: 1 Wrong Marks: 0.25

एक निश्चित कूट भाषा में,

'M & N' का अर्थ है, 'M, N के पिता है',
'M @ N' का अर्थ है, 'M, N की माँ है',
'M % N' का अर्थ है, 'M, N का भाई है',
'M # N' का अर्थ है, 'M, N की बहन है'।
उपरोक्त के आधार पर, यदि 'M @ Q% T & G # K% N' है, तो K, M से किस प्रकार संबंधित है?

Options:

- 1. ₩ पुत्र
- 2. 🗱 भाई
- 3. ❤ पुत्र का पुत्र
- 4. ₩ पिता

The difference between a turtle and a tortoise is that the turtle lives in the water while the tortoise lives on land. Both of these animals existed before the dinosaurs. However, one thing they have in common is that they can live up to 120 to almost 200 years. Some of them are enormous, similar to the Galapagos Islands' giant tortoises. (1) ______. They are able to live for such a long time because, unlike humans and birds, the important parts of their bodies do not weaken with age. In fact, they will grow very slowly for the rest of their lives. To survive, their bodies do not require much energy. They can survive without food or water for long periods of time. Other threats to life exist for tortoises and turtles. Their hard shells take some time to form after birth. (2) ______. The pollution of their living environment is the second threat to their life.

A. Until then, birds and fish can easily catch them.

B. The Blanding's turtle has been observed swimming beneath the ice in the Great Lakes region, despite the fact that most turtles struggle with the cold.

C. Each of their shells is more than a meter long and weighs more than 200 kilograms.

Inference: Indus valley civilisation

1. Archaeologists discovered well-planned cities with wide roads and burnt-brick multi-story houses. They also found a

public bath with small rooms surrounding it and an intricate drainage system here, as well as in other parts of Gujarat,

Rajasthan, and Punjab. These changed everything we thought we knew about our ancestors and even pushed back

Indian history.

2. An enigmatic find was made by scholars at these locations. It has been discovered hundreds of "seals" with vivid

engravings of animals, birds, and humans, as well as odd bits of pictorial writing. Evidently, soapstone, a soft stone, was

used to make these seals, which were then baked in a furnace. Similar inscriptions have also been discovered on copper

tablets, clay, and pottery.

3. India was said to have as many as 64 scripts by 500 BC. We can say that we have perhaps the most languages and

scripts in the world today. All date back to ancient times and were used to commemorate significant literary and

linguistic accomplishments.

Inference: Chinese picture writings

1. It is believed that Fu-Si developed the Chinese script around 2850 BC, and Tsang Chi, a minister to the Imperial ruler,

gave it a definitive form around 2700 B.C. He is said to have drawn the shape of a tortoise after watching it one day. He

also drew pictures of people, animals, birds, fish, snakes, and other things like that. For inspiration, he even looked at

the sand and other surfaces for their footprints and bird claw-marks. He also drew larger objects like houses, the sun, the

moon, mountains, rivers, and rain.

2. Simple syllables or combinations of simple syllables make up almost all spoken Chinese. Therefore, it is not

surprising that they only have a few words. A single sound can mean many different things. For instance, 188 words are

represented by the syllable "yi." As a result, rather than writing each sound with a different sign, the Chinese write each

meaning.

3. When China's first Emperor, Shih Luang-ti mandated the use of this writing system throughout his empire in the third

century BC, China became one nation. All of the Chinese spoke very different dialects, but they could all read a

common script that connected them all. Because it does not follow an alphabet, this was possible. Similar to Egyptian

hieroglyphs, it is pictorial.

Options:

1. * Only 1 and 2

2. * Only 2 and 3

3. • Only 1 and 3

4. * 1, 2 and 3

Questions : No Question Pattern Type : NonMatrix Calculator : None Response Time : N.A

Think Time: N.A Minimum Instruction Time: 0

Question Numbers : (76 to 80)

Read the given passage and answer the questions that follow.

One day, I hopped in a taxi and we took off for the airport. We were driving in the right lane when suddenly a car jumped out of a parking space right in front of us. My taxi driver slammed on his brakes, skidded and missed the other car by just inches! The driver of the other car whipped his head around and started yelling at us. My taxi driver just smiled and waved at the guy. And I mean he was really friendly.

So I asked, 'Why did you just do that? This guy almost ruined your car and would have sent us to the hospital!'

This is when my taxi driver taught me what I now call the 'The Law of the Garbage Truck'.

He explained that many people are like garbage trucks. They run around full of garbage, full of

anger and full of disappointment. As their garbage piles up, they need a place to dump it and sometimes they'll dump it on you. Don't take it personally. Just smile, wave, wish them well, and move on. Don't take their garbage and spread it to other people at work, at home or on the streets.

The bottom line is that successful people do not let garbage trucks take over their day. Life's too short to wake up in the morning with regrets, so 'Love the people who treat you right. Forgive the ones who don't'. This attitude will help you sail through life. There will be fewer jerks and bumps. Learn to take the bad with the good, for life can never be perfect. Acceptance of what is, is the solution. Don't react, just accept and you will be a lot happier.

Life is ten per cent what you make it and ninety per cent how you take it!
